Experience

LinkedIn   Software Engineer - Front End
January 2016 - January 2017

Worked with 3 web developers on the Profile Editing team. Used EmberJS to write various features and reusable components for editing one's profile on mobile web and desktop. Collaborated with Design and QA to create beautiful and functional software.

Crafted effective member communications on L2M team through a data-driven approach.

Adobe   Web Development Intern
May 2015 - August 2015

Worked in the Imagination Lab on the re-design and development of the Adobe Research newsletter and the re-design, development and migration to a new Adobe Research web site.

Lookthink   Development & Design Intern
June 2014 - August 2014

Designed mockups then executed websites or custom Wordpress themes. Communicated with clients. Functioned as lead developer for 3 projects.

Freelance   Development & Design
August 2014 - Present

Working on web design & development projects for various clients like Staples, Spruce Health, and MinuteMan Press.
